

Enable Seamless Direct Materials Procurement With a Cloud-Based Collaboration Solution

NTT DATA Implementation Services for SAP Ariba Collaborative Supply Chain

Benefits:

- Accelerated implementation with template-based, industry-specific configuration workbooks for all SAP Ariba solutions
- Agile methodology for a flexible, rapid implementation up to 40% faster
- Rapid deployment for Ariba Network integration with enterprise resource planning (ERP) for faster implementation
- Cost containment, ensuring maximum profitability through financial control and smart spending
- Adherence to international regulations, standards and industry best practices
- Complete Ariba solutions deployed on time, accelerating return on investment and eliminating risk of failed implementations

A complex supply network requires interaction with several thousands of outsourced resources, partners, suppliers and customers around the world. The SAP Ariba Collaborative Supply Chain solution makes it possible to share real-time information with direct materials suppliers and tap network-generated intelligence to achieve new levels of efficiency.

By facilitating collaboration without boundaries, you can enable greater visibility into direct materials, comply with regulatory mandates, reduce costs through electronic transactions, increase profitability and deliver the perfect order. Gain the benefits of cloud-based collaboration with NTT DATA Implementation Services for SAP Ariba Collaborative Supply Chain.

Why NTT DATA?

- More than 28 years of SAP experience, focused on providing fully integrated client solutions
- More than 100 SAP Ariba professionals with deep functional and technical expertise
- Strong supply chain process knowledge and expertise in SAP Ariba solutions
- Industry-specific procurement process expertise to tailor the services to your standards
- Experience in country-specific regulatory requirements for taxation and e-invoicing in North America, Europe, Asia-Pacific and, particularly, Latin American (Brazil, Chile, Argentina)

NTT DATA Implementation Services for SAP Ariba Collaborative Supply Chain

Accelerated implementation, faster time to benefits

Based on decades of supply chain expertise across a wide variety of industries and regions, NTT DATA established a proven methodology for rapid deployment of SAP Ariba. Whether you need a complete SAP Ariba implementation or just enable the Collaborative Supply Chain module in your ERP with Ariba Network, our Implementation Services can have your organization up and running quickly with our agile methodology driven by best practices and process accelerators, including:

- A connected logistics solution integrated with Ariba for shipment tracking in real time
- A legacy contract migration tool, and legacy purchase order (PO), goods-receipt, invoice-receipt migration strategy and tools
- Anti-corruption and anti-bribery solutions framework and contract management solutions
- Customized solutions for PO PDF attachments, forecast schedules, order confirmation and quality notifications (supplier deviations) integrated to backend SAP ERP Central Component
- Pre-built, industry-specific and best practice configuration workbooks and test scripts library for common industry business scenarios
- Interface, data mapping and data migration templates
- Proven approach to minimize integration costs, drive efficiency, and increase collaboration and compliance for SAP and multi-ERP integrations
- Interface development objects
- SABRIX tax engine integration and country-specific tax management guidance
- Integrated solutions for P-Card transactions and integration with American Express (extendible to Mastercard and Visa) and automation of reconciliation of charges

-  Strategic planning and business case preparation to accelerate your implementation roadmap
-  To maximize your legacy investments, we support your design needs for on-premises, hybrid and cloud solutions
-  80/10/10 iterative agile approach to enable a flexible and rapid implementation up to 40% faster
-  Balanced delivery — onshore, near shore and offshore — enabling cost and timing efficiencies
-  Our consultants partner with you for change management services to ensure maximized adoption for your organization

NTT DATA provides a flexible, cost-effective cloud-based solution for implementing SAP Ariba Business Network and Collaborative Supply Chain solutions

- Multi-industry expertise in delivery of best practice procurement business processes with seamless integration
- Automation through standardization, with optimized project management tools for every engagement

NTT DATA also offers pre-configured Collaborative Supply Chain solutions for the automotive, industrial manufacturing, high-tech and telecommunications, and retail and wholesale distribution industries, as well as process manufacturing, including pharmaceuticals.

Overcome industry challenges with our expertise

Receive the right product, in the right place, in the right quantity, at the right time — every time. Our recent collaborative supply chain implementation success stories include:

- Global pharmaceutical and research-based bio-pharmaceutical companies
- North American insurance companies and European insurance conglomerates
- North American healthcare organizations
- A North American retail telecommunications company
- A North American power generation

- A North American fullstream oil and gas company

Outcomes delivered:

- Saved more than \$200 million overall in sourcing costs across our client base
- Ensured 95% contract and procurement compliance
- Reduced costs by 60% for managing purchase orders and invoice processing
- Increased supplier enablement on Ariba by 35%

Find out how NTT DATA can help you

Look to NTT DATA to connect all systems and stakeholders with a single, cloud-based solution so you can collaborate effectively with multiple tiers of suppliers and trading partners in direct materials procurement.
